

RØDE MICROPHONES D-Power

A retro-fit instrumentation Pre-Amplifier designed to 'Turbo Charge' dynamic mics.

The same circuit as used in D-PowerPlug. Just pull out the XLR connector on your favourite mic, solder in D-Power, and you have an active, high level drive, dynamic Stage or Broadcast mic.

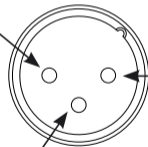

CE (EMC, LVD) N3594

- Instrumentation grade pre-amplifier.
- Balanced input and balanced output.

- Minimum losses over long cable runs.
- P48V phantom powered.

Male XLR Input

Pin 1 GND

Pin 2 Signal(+)

Pin 3 Signal(-)

if used
